

Telzon Solutions was incepted in UAE in the year 2014 for providing integrated IT Solutions to Corporates, Schools and Residences. Over the last many years, we have evolved into a major service provider having team across UAE. So far, we have provided turnkey solutions to many clients in UAE.

We at Telzon Solutions provides integrated solutions, annual Maintenance Contracts to Corporates, Projector Bulbs to Schools and Network Maintenance services to Residential complexes. Our offering is a mix of high quality services that serve the rapidly converging professional communication, device control, and energy internet requirement of Education, Industry and Residential Complexes.

We focus on providing integrated design & build services for delivering converged technologies for voice, data, video, audio and control with solution offerings which include turnkey services and technology program management for Green Building, Green Data Center, Smart Campus and Smart City technology integration.

Telzon team has a cumulative experience of over 60 years and we deliver unsurpassed value through amalgamation of our knowledge and experience. Our committed and well trained staff members work in close coordination with the clients, understand clients' requirement and provide services and solutions tailored to meet the requirements of each client.
