

Flexisnug offers flexible, affordable, and highquality designer furniture rental solutions in Singapore.

• Sustainability

Too often, when people need furniture for the short-term, they turn to cheaply made pieces that will be disposed of once they are no longer of use. We at Flexisnug are hoping to change this.

By renting instead of buying, you'll help minimise waste of materials and reduce carbon emissions caused by production and transportation. That means a greener earth for all of us.

We're also committed to sustainability in all that we do – all our wood products are ethically sourced and FSC-certified, we use eco-friendly methods in our cleaning and refurbishment, and we ensure minimal plastic is used in our packaging.

• Flexibility

Life is full of commitments – don't let your furniture be one of them.

For those with temporary furniture needs, renting is a great alternative to the costly and time-consuming process of shopping for, transporting, and assembling new furniture, not to mention the dreaded hassle of selling or disposing of them once it's time to leave.

With Flexisnug's comprehensive selection of designer furnishings, you'll find almost everything you need, for as long as you need it. We offer flexible solutions where you can extend, renew, or shorten your lease, and return or exchange your furnishings without heavy penalty fees.

• Affordability

Enjoy top-quality products at a fraction of their retail price.

Need an extra bed for a month while the in-laws are staying over? Planning to convert your spare room into a home office before turning it into a kids' room once the time is right? Looking to change up your interior style without having to splurge on thousands of dollars of furniture?

Ethnicraft

A specialist in teak and oak solid wood furnishings, Ethnicraft embodies impeccable crafts- manship, sustainability, and warmth of character. In a world where trends change daily, Ethnicraft is timeless and functional. In addition to a diverse collection of gorgeous solid wood pieces, Ethnicraft also offers soft furnishings, such as elegant and comfortable sofas, lounge chairs, and armchairs in a variety of configurations, colours, and fabrics. As a sign of their commitment to environmental protection, all Ethnicraft products are FSC-certified.

Notre Monde

Sophisticated and subtle, Notre Monde's collection of trays, mirrors, and accent furniture is made using traditional techniques and inspired by cultures from across the globe. Each one-of-a-kind piece is crafted by hand, melding luxury and practicality in the ultimate decorative spirit.

Fermob

Spruce up your outdoor space with stylish and versatile selections from this heritage French brand. Mix and match from 10 colours to create the perfect accent piece for your home.

Woven Plus

Founded in 1922, Dutch furniture company Woven Plus develops and produces contemporary in- and outdoor furniture, combining high quality resin, rope, aluminum and teak, and designed to withstand weather conditions while looking stylish. Featuring soft natural tones to blend with any style, every wicker piece of furniture is handmade in the spirit of traditional craftsmanship which Woven Plus is passionate about, giving unique character to each design and a personal touch to any living space.

Siesta

Siesta offers an extremely wide range of versatile and colourful products, made from diverse materials like polypropylene, resin and fibreglass along with strong technical characteristics. Their pieces possess inimitable qualities such as softness, flexibility and resistance to any weather conditions. A concentrate of quality that makes the Siesta product so unique and special for your in- and outdoor settings.
